

Commisioner Powell's gutless and unprincipled failure to act on Sinclair Broadcasting's abuse of the public airwaves is about what one might expect from a hand picked toad of the Bush junta. Since his appointment to the FCC, he has consistently acted against the interests of the public, and in favor of the large media conglomerates which are relentlessly turning the airwaves into a corporate wasteland. I can only hope that a new administration will clean the deadwood out the nation's regulatory agencies. The clock is ticking, Powell, on your disgraceful behavior. Stop Sinclair and serve the public commonweal.
